

# Example of SLCP Adoption: Taypa

12

SLCP saved Taypa 12 unnecessary audits in 2021.

32

Due to reduced audits at 4 facilities, Taypa saved a total of 32 days worth of working hours.

65%

Taypa was able to share their SLCP verified data with brands that make up 65% of their production volume.

## Why Taypa chose SLCP...

Helps identify issues and plan systematic and sustainable improvements.

Supports in establishing management system infrastructure.

Involves verifying a year's worth of data reviewed during the self-assessment, instead of only taking a snapshot of the factory.

## SLCP Journey and Strategy

### 2018 & 2019

Learned about SLCP at a brand training in 2018. Reviewed social compliance processes in 2019 and started preparation for transition to SLCP.

### 2020

Completed first SLCP verification which helped in understanding the process. Preparation to roll-out to all factories were completed.

### 2021

Became an SLCP signatory and enrolled all factories in Turkey for SLCP. SLCP verifications completed in 4 factories.

### 2022 & beyond

Aims to increase the SLCP verification accuracy percentages every year, and gradually roll-out in full supply chain.
