

Brands, retailers and organizations that accept SLCP verified data

The following brands, retailers and organizations accept SLCP verified data. This means that if a facility has a verified SLCP assessment, the brands will usually accept this in the place of a third party or proprietary social audit. See the list below for details of the countries/regions and tiers where SLCP verified data is currently accepted by each brand or standard holder. If you are a facility and you would like to know whether a brand will accept an SLCP verified assessment, please contact them directly for the most up-to-date information and to discuss your specific circumstances. Please note that SLCP is not a certification program, and suppliers will therefore be obliged to meet each brand’s code of conduct/compliance requirements. For up-to-date information on where SLCP is operational, please visit the SLCP [Gateway](#). If you are a brand or retailer and would like to be added to the list, please complete this short [survey](#) to opt in.

* Manufacturing tiers can be defined by process:

- **Tier 1** are all processes related to finished product assembly such as cutting, panel screen printing, embroidery, sewing, pressing, garment dyeing, washing & finishing, packing etc.
- **Tier 2** includes all processes related to material production such as weaving, knitting, fabric dyeing/printing, chemical/mechanical finishing, tanning etc.
- **Tier 3** includes all processes related to raw material production such as stock dyeing, yarn spinning/dyeing, fleshing, liming etc.

Brand acceptance list last updated 28 October 2020.
